SIVA PRAVEEN KURAPATI

Aspiring Software Developer | Python • React.js • JavaScript • SQL

Visakhapatnam, India | +91 6304414530 | kurapatisivapraveen@gmail.com

PROFESSIONAL SUMMARY

Entry-level software developer transitioning from Mechanical Engineering, with a foundation in Python, JavaScript, SQL, HTML, CSS, and web application development. Built academic/personal projects involving responsive interfaces, database operations, CRUD workflows, and Python/Django. Familiar with REST API and backend framework concepts, and motivated to grow in React.js/Next.js-based development, clean coding, and teamwork.

TECHNICAL SKILLS

Programming: Python, JavaScript, Java, C, SQL

Frontend: HTML5, CSS3, Responsive Design, DOM Manipulation, Form Validation, React.js (listed in existing resume)

Backend & APIs: Django, Flask, FastAPI; REST API fundamentals

Databases: SQL, Relational Database Design, CRUD Operations, MongoDB, CognoDB

Tools & Libraries: Git, GitHub, VS Code, NumPy, Pandas, Matplotlib

Core Skills: Problem Solving, Basic Data Structures, Team Collaboration, Adaptability

PROJECTS

AI-Powered Job Search Web Application | HTML5, CSS3, JavaScript

• Built a responsive web interface with login/registration screens and client-side form validation.

• Created a dashboard concept for job listings, resume analysis, and interview preparation.

• Used JavaScript DOM manipulation for interactive features and AI-assisted tools to refine UI/UX.

Movie Graph Recommendation System | Python, Django, CognoDB, Cypher, HTML, CSS, JavaScript

• Developed a movie recommendation application using Python and Django with a graph database.

• Implemented genre-based recommendations using Cypher queries and stored relationships among users, movies, and genres.

• Added filtering to exclude movies already watched and built the web interface with HTML, CSS, and JavaScript.

Library Management System | Python, SQL, CRUD, Database Design

• Built a library management system to manage book and user records with CRUD operations.

• Designed relational database tables and added search, availability, issue, and return workflows.

• Used SQL queries to manage library records and transaction-related data.

EDUCATION

B.E. — Mechanical Engineering — Vignan's Institute of Information Technology | 2020–2023 | CGPA: 7.72

Diploma — Mechanical Engineering — Behara Polytechnical Campus | 2017–2020 | CGPA: 7.92

SSC (10th Grade) — Chalapathi High School | 2017 | CGPA: 8.0

CERTIFICATIONS & ADDITIONAL EXPERIENCE

• Generative AI — Certificate of Completion (2026)

• Tech Fest Hackathon — Built an AI-powered app in a team (2026)

• Internship — Hobel Bellows, Visakhapatnam (4 months, 2023)

• District-Level Nominee — Handicapped Tricycle Project (2018)
